

### Engaging Assignment #3

**Imagine you are in charge of developing some sex education curriculum for K-12 students.** In 1-1.5 pages, discuss what you would include in a sex education program. Your discussion can be in the form of an essay or a list (it's up to you). In thinking about what you want to teach, you should also reflect on why you think it is important to teach certain topics/material. Your discussion **must draw upon (and cite) at least 2 readings** from this semester.
